

## Nagre Ruth Zumebaare

I am Nagre Ruth Zumebaare, a current (2017) graduate of the Kwame Nkrumah University of Science and Technology. I studied BSc. Business Administration (Accounting option).

When I gained admission into the university in 2013, I had no idea that I would be completing because the future was blurry with no hope because of the financial challenges that my family faced.

In my third year however, 2015/2016 academic year I met this wonderful family called Educational Pathways International (EPI). EPI gave me the needed assistance ranging from financial to social life through various seminars and gatherings and I am very grateful. I have become more confident, focused and ready to face the corporate world.

I aspire to be a renowned Businesswoman and employ others as well as mentor girls in the Ghanaian community.
