

Queensta Mensah

I am Queensta Mensah, I studied B.A Political Science at the University of Ghana (Legon). I envisioned to be an influential Diplomat and actor in Global Affairs. "He who recognizes opportunities and makes good use of them sets himself on the path of success." Right from the selection process through to joining Educational Pathways International (EPI) has impacted my life in different ways.

Being a beneficiary of this noble scholarship has boosted my self-confidence, help shaped my career goals and to be focused, determined and work hard to achieve excellence as a scholar. Also, being a part of this wonderful family has granted me the privilege of interacting with brilliant scholars from other universities.

Another unique training from EPI Scholarship is the aspect of imbibing into the youth, the need to give back to the society. I strongly believe my career as a diplomat will contribute to the development of Ghana and I will grant aid to the needy in society for them to realize their goals in life.

Merci beaucoup.
