

Rashidatu Bassabi

My name is Rashidatu Bassabi, a graduate of the University of Ghana Business School. I studied Bachelor of Science in Administration, majoring in banking and finance.

Educational Pathways International (EPI) is an amazing scholarship program that enabled me to have access to tertiary education and has also given me lots of opportunity to gain training on personal worth building and self-advancement skills.

I hope to take advantage and make use of the foundation granted to me by EPI to further my education and career. I aspire to help lower class and single mothers to build financial independence.

I am grateful to EPI for the blessing they have given me. I hope to make you proud for all your efforts in my life.
