

## ANDREW ESSIAW

I am a graduate of the University of Ghana. I studied BSc. Administration (Accounting Major).

In the year of my admission, I gained a full scholarship from the Educational Pathways International (EPI). This scholarship completely turned my life around. It became very possible to acquire the level of education I needed to impact my society.

My dream has always been to achieve a level of education and skill that could make me a household name when it comes to issues in Accounting and Finance. I am so grateful to EPI for making me see the possibilities of achieving this dream.

I promise to take advantage of this opportunity given me and also to impact the lives of others by helping them achieve their goals as well.

I thank EPI and its very comprehensive scholarship program for all I have gained.
