

WESLEY EKUBAN

My name is Wesley Ekuban. I read Business Administration in Accounting at Kwame Nkrumah University of Science and Technology (KNUST), Ghana.

Educational Pathways International (EPI) has contributed immensely to my four-year stay in the University. The scholarship built in me an excellent leadership and social lifestyle together with a renewed mind-set and hope for a brighter future. It took away my financial distress and pushed me forward to pursue higher academic and career goals.

I intend to become a Chartered Accountant, Financial Analyst and a Consultant. Higher education prowess is required for actualization of these goals and EPI has laid

the foundation stone and created a firm pathway towards my career goals.

It has been a pleasure being part of EPI family and I extend my highest appreciation to all EPI sponsors for such tremendous support.
