

SOPHIA ACQUAH

I am Sophia Acquah and EPI has been a blessing in my life.

During my undergrad years when it seemed that inadequate financial resources were going to end my educational dream, Educational Pathways International (EPI) came to my rescue. The organization financed my education and was a great pillar to lean on in other aspects of life too.

Through EPI, I gained another set of family, a family that encourages me and has my interest at heart. Knowing that EPI saw talent and a great future in me, I was motivated to realize my full potential. Being with EPI has been a great and wonderful experience; an experience that promises no end with the strong and wonderful relationships with the organization and other beneficiaries.

It's been six years since EPI came to my aid and three years since I graduated from the University of Ghana Business School with first class honors in BSc. Administration. Currently, I work as a Forex Sales Officer with the Treasury department of UT Bank Ltd, in Accra, Ghana. I hope to further my education and become a Lecturer in finance. It's my dream to strengthen my knowledge in finance and teach it to others to help grow the economy of Ghana and Africa. This is because, I strongly believe that it is mainly through education that Ghana and other developing countries will be empowered to develop their economies on their own. EPI has empowered me to change my society and simultaneously made it possible for me to follow alongside to empower others. The most crucial step in embarking on my dream has been made possible by EPI.
