

JULIUS ANTHONY

I am Julius Kwame Anthony. I hold a second class upper degree in BA Public Administration and Chinese from the University of Ghana (Legon).

I am currently the General Secretary of the National Union of Ghana Students, the second highest student representative in Ghana.

The Educational Pathways International (EPI) scholarship saved my academic journey and ensure I progressed through the University with sound mind, knowing the next fee payment wouldn't be a hurdle. The EPI scholarship came in handy for me when I had to travel to China to further my Chinese Studies. Without the scholarship, I'd have had a hard time in school.

It's my goal to be a legal practitioner in half a decade and make further strides in my political pursuits.

I chose Public Administration because it's a perfect foundation for my aspirations in public service. I am very grateful to Educational Pathways International for their investment into my life and that of others. God bless EPI so much.
