

DR. MARGARET MORGAN WRIGHT

My name is Margaret Morgan Wright, I am a graduate of the University for Development Studies (UDS) in Ghana with a degree in Doctor of Medical Laboratory Science.

My goals to achieve in life had always been to attain higher education. I would like to take this opportunity to express my gratitude to Educational Pathways International Scholarship for their generous support.

Thanks to the generosity of the Educational Pathways International (EPI) Scholarship, my dream of becoming a Dr. of Medical Laboratory Scientist a reality. Receiving this scholarship has been a game-changer for me. Growing up in a low-income household, I never imagined that I would have the opportunity to attend university, let alone pursue my

dream career. This scholarship has provided me with financial support, recognition, and encouragement, and has enabled me to pursue my dream of higher education. With the financial support of this scholarship, I have been able to pursue my university education with the goal of becoming an epidemiologist, with a Bachelor's degree in Medical Laboratory Science.

I chose to pursue Doctor of Medical Laboratory Science degree because of my passion for research, as well as the competitive earning potential in the healthcare sector. I intend to further my education and pursue my dream of becoming an epidemiologist. EPI's generosity has inspired me to help others and give back to society. As a public health advocate, I had planned to embark on a project to educate the public on common infectious diseases and screening them for better intervention.

Not only has this scholarship allowed me to focus on my studies without the added stress of financial worry, but it has also given me the chance to participate in various volunteer activities and community service. By participating in these community services, I have been able to connect with individuals from diverse backgrounds and learn valuable skills, insights, and perspectives that have enriched my academic experience and prepared me towards achieving my career goals.

I thank Educational Pathways International for investing in me, and I am grateful for their thoughtful and generous support.
