

DR. FATAHIYATU SAYIBU

I am Dr. Fatahiyatu Sayibu. I studied Doctor of Medical Laboratory Science at the University for Development Studies (UDS), Tamale, in the northern region of Ghana. As a scholar of Educational Pathways International (EPI), I am grateful for the transformative impact the organization has had on my life, academics, and goals. The financial support I received enabled me to focus on my studies, and I successfully graduated with a Second Class Upper honors degree. Moreover, the funds also allowed me to explore my passion for fashion and design, acquiring skills that have enabled me to establish a thriving fashion business alongside my mandatory internship.

I chose the Doctor of Medical Laboratory Science programme because of my passion for healthcare and desire to contribute to the diagnosis and treatment of diseases. The programme has equipped me with the

knowledge and skills necessary to excel in my career.

My career goal is to become a leading medical laboratory scientist, making significant contributions to healthcare in Ghana. In the future, I plan to pursue specialized training in molecular diagnostics and establish a state-of-the-art medical laboratory.

Beyond the academic support, I appreciate the soft skills training provided by EPI, which has helped shape my life and prepare me for the workforce. The skills I acquired in areas such as leadership, communication, and problem-solving have been invaluable in my personal and professional growth.

I intend to give back to society by training people on entrepreneurship, fashion, and design, empowering them with the skills and knowledge necessary to succeed in their chosen endeavors. Additionally, I plan to educate the public on the importance of acquiring skills, promoting a culture of self-sufficiency and innovation. Through these initiatives, I aim to make a positive impact in my community and contribute to Ghana's socio-economic development.

I extend my heartfelt appreciation to Educational Pathways International (EPI) for their invaluable support throughout my academic journey. EPI's investment in my education has not only transformed my life but also empowered me to make a positive impact in my community and beyond.
